## Experience

---

### Thinkful, *Student – Engineering Immersion*

Oct 2018 – Mar 2019

Thinkful is one of the top full-stack coding bootcamps in the country. They offer people the opportunity to become a talented full-stack developer by working 50+ hours per week for 5 months in order to learn the ins and outs of what it takes to be a developer.

- Gained experience building and deploying full-stack web apps in the MERN stack using industry best practices and practical software development standards.
- Worked on a team and collaborated with junior and senior engineers to develop unique products

### Insight Global, *Professional IT Recruiter*

Jun 2015 – Jun 2018

Insight Global is the third largest IT staffing company in the country. They specialize in staffing for positions in IT, Accounting, Finance and Engineering.

Responsibilities:

- Utilized leadership skills in an office setting to train new hires, delegate workloads, encourage and monitor recruiters, report progress, and conduct production meetings and role play
- Owned sourcing, submittal, phone interview, onsite interview, and on-boarding process for a wide array of technical and non-technical jobs within the Philadelphia market

### Janssen Research and Development (DOCS Global, Inc), *GTM-CTA*

May 2013 – May 2015

Janssen is a Pharmaceutical Company of Johnson and Johnson, and the focus of this position was to support operational aspects of Global Clinical Operations (GCO) managed clinical trials. Scope of work includes tasks associated with trial start-up, execution or close out, in all phases of clinical trial development.

Responsibilities:

- Full Life Cycle management of Phase I, II, III, and IV clinical trials
- Experience working with groups in Oncology, Rheumatoid Arthritis, Gastroenterology
- Led meetings with Local Trial Managers (LTMs) and Site Managers (SMs) to make sure that each country and site maintained proper compliance and regulations
- I worked on multiple trials simultaneously and oversaw 12+ countries and 100+ sites for each trial I worked on.

## Education

---

### Thinkful Bootcamp

Oct 2018 – March 2019

*Engineering Immersion – Full-stack Development*

Learned new languages and frameworks while completing multiple projects. Developed skills in full-stack web development. Skills include, but are not limited to: JavaScript, jQuery, Node, React, Redux, Mongo, HTML, CSS.

### Pennsylvania State University

Aug 2008 – May 2013

*Bachelor of Science – Kinesiology*
